REVISION HISTORY AND STATEMENT OF ORIGINALITY

Revision History

Revision No.	Date	Author	Organisation	Description
1	15/06/2017	Henning Scholz	EF	Report from the Aggregator Forum meeting

Statement of originality:

This milestone contains original unpublished work except where clearly indicated otherwise. Acknowledgement of previously published material and of the work of others has been made through appropriate citation, quotation or both.

The sole responsibility of this publication lies with the author. The European Union is not responsible for any use that may be made of the information contained therein.

Aggregator Forum meeting April 2017

The first Aggregator Forum meeting of 2017 was co-organised by EF in The Hague from 18-19 April 2017. Fourty-three colleagues representing 26 aggregators and EF attended these one-and-a-half-days long workshops in the Europeana offices. We worked extensively on the future aggregation landscape, discussed the work we do for data distribution (thematic collections, Europeana Research, Europeana4Education) and worked on next steps to improve data quality. A summary of the main goals, the agenda, key outcomes, and actions of the meeting can be found on the following pages, which are also available online.

Aggregator Forum

18-19 April 2017 | The Hague, Netherlands

Sebastiaan ter Burg

Aggregator Forum

Aims and scope

- To work on the future of digital access to cultural heritage and the implications for the aggregation landscape

- To explore opportunities to reach new audiences for collections published in Europeana

- To introduce the data quality plan and work on problem patterns identified by the Data Quality Committee (DQC)

- To provide opportunities for aggregators to share experiences, best practices and use cases

Aggregator Forum

Who attended

- 26 aggregators were represented by

- 43 attendants from

- 18 countries

- + Europeana Data Partner Services team
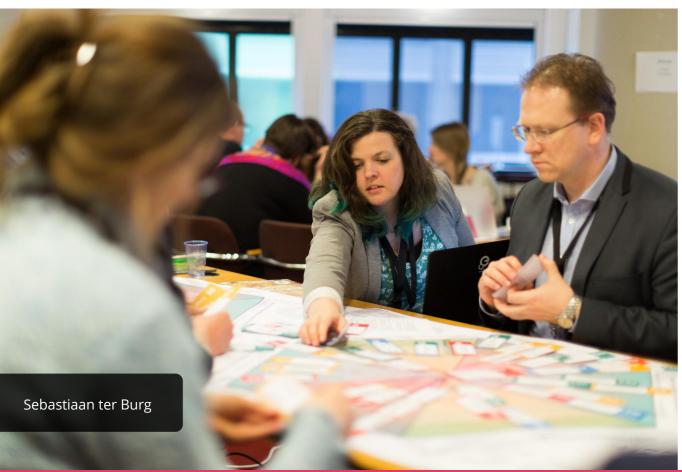

- + more members from the Europeana Office

Impressions

Sebastiaan ter Burg

Aggregator Forum

Key outcomes - Thematic collections

- Action: define and share topic-based metadata requirements for data to be included in each of the thematic collections

- Action: share 'calls for content' for Europeana campaigns or thematic collections with aggregators in advance

Aggregator Forum

Key outcomes - Europeana Research

- Action: Define requirements for data needed for Europeana Research

- Action: Develop a more streamlined way of sending in collection descriptions for research datasets

- Action: Work on including more datasets and featured collections on Research

Aggregator Forum

Key outcomes - Europeana4Education
